FYI - Jane is sick so I will be briefing Bob P. on Rosemont this morning with the SMT on 18. Also, the dredging program briefing for Jane will need to be rescheduled again.

Subject: Not feeling well

I came in today with what I thought was the beginnings of a cold and am leaving nauseous (rare for me). Hopefully I will be fine in the morning, given the Bob P visit, all hands re shutdown, etc., but I wanted to give you a heads up in case I take a turn for the worse. I'll make sure everything is covered in the unlikely event it's unwise for me to come in.
